board)

And good bye

Kavaratti Island

Location: 10'-33* North Latitude and 72' -38* East Longitude, located 404 kms. from Cochin.

It is the headquarters of the U.T Administration since 1964. You have enough time to explore the island.

The beautiful calm lagoon forms an ideal spot for water sports, swimming and basking on warm sandy beaches. Marine life exhibits can be seen at the new MARINE AQUARIUM which has excellent collection of specimens.

Do not bother if you are not a good swimmer, we have made viewing the exotic underwater world easier for you through our glass bottomed boats.

The Dolphin Dive Center is another attraction for water sports enthusiasts.

(Tourists availing 'Taratashi' package to KAVARATI stay in the tourist huts at the tourist complex. One can also visit KAVARATTI in Taratashi packages.)

Location: 10'-05* North Latitude and 73'-39* East Longitude, located 287 kms. from Cochin.

It is known for its Scenic beauty and the small islets called Tilakkam and Pitti and an uninhabited island on the north called Cheriyam.

A huge shallow lagoon encloses all of them. A peculiar feature of KALPENI atoll is the huge storm bank of coral debris along the eastern and south-eastern shorelines.

It is believed that huge boulders were thrown up during a storm in 1847. It is a progressive island. It was in this island that girls first went to school, when women's education was considered a taboo.

Here, one can swim, reef-walk or water sport on kayaks, sail boat and pedal boat. A visit to the Baniyan Factory and the Light House is also included in the day's program.

Location: 8'-17* North Latitude and 73'-04* east Longitude, located 398 kms. from Cochin.

It is about 10.6 Kms. long: it is the second largest island, the first being ANDROTT. It is the southernmost island in Lakshadweep, crescent shaped and has one of the largest lagoons.

Viringili is the small islet that can be seen on the south. MINICOY is set apart from the northern group of islands by its culture: the islanders are employed as seamen in ocean going vessels the world over.

The island has a systematically arranged village system known as 'Avah'. Each avah is a cluster of houses which is headed by an elected elderly man called Bodukaka. Traditionally all powers to manage village affairs are vested in him.

Each village has a village house beautifully decorated and maintained. Mahl is the spoken language. MINICOY is an important centre for tuna fishing.

The Light House of the island is one of the oldest and was constructed in 1885. One can visit the villages, tuna canning factory, the light house and go for a long drive through dense coconut groves and winding village roads. The beaches have bathing huts and change rooms. So swim

and beach walk, Pedal boat, Kayak and Sail. Three Tourist Cottages and a Twenty Bedded Tourist Home have been constructed for the staying tourists.

Kadmath Island

Located between 11° 13° North Latitudes and 72° 47° East Longitudes, 407 km away from Kochi.

Kadmath is 8 km long and only 550 meters wide at its broadest point. In addition to the beautiful shallow lagoon on the west, which is ideal for water sports, there is a narrow lagoon on the east.

The main attractions are the long sandy beaches and sand banks on the southern tip. Tourist huts built amidst palm groves facing the lagoon allow to soak in the pristine beauty of the ecosystem. Kayaks, sailing boats, pedal boats, skiing boats and glass-bottomed boats are available on hire.

A Water Sports Institute functions on the island. Marine Wealth Awareness Package allows to spend 2-4 days on the island enjoying the rich bounty of nature. Kadmat has emerged as one of the most beautiful dive centers in India.

Variety of fishes like rays, sharks, and clear water with 20-50 meter visibility makes it an unparalleled dive destination for scuba divers.
